

FOULS: TAKE CARE OF

1. Your Mechanics First — communicate to your partners (show spot or # of shots), then report to the table using appropriate mechanics
2. After reporting, the calling official remains tableside. When in position, Trail confirms ready with table (check subs, 5th foul, etc.) and initiates sequence: Trail → Center (check table for subs) → Lead
3. 5th Foul Procedure: confirm all officials are aware of the 5th foul — discuss patience on administration and wait to administer ball until all officials are ready
4. Trail & Center step down after release, Lead steps back: Don't bail!

ROTATIONS

- Discuss rotations in both frontcourt and backcourt
- Make sure non-calling officials focus on dead ball activity
- Stay Focused / Own Your Primary

FREE THROWS

- Discuss positions on action and non-action free throws
- Pause and Assess: get the call, administration and rotations right
- Make sure non-calling officials cover rebound lanes

Remember: Pause & Assess — get the call, administration, and rotations right before putting the ball back into play
